Description: A combination of loss of clamp load and inadequate joint engagement could result in a separation of the right front lower control arm from the steering knuckle.

If the right lower control arm separates from the steering knuckle, the driver may experience a loss of directional control. A loss of directional control can cause vehicle crash without prior warning.

Remedy: Inspect the right front knuckle and lower control arm for damage and replace as needed, and to replace the right front lower control arm knuckle pinch bolt with a larger-diameter pinch bolt.

Description: The battery ground may have been built with a sealer that is used during the wire harness manufacturing process may accumulate on the wire harness tab which may cause a loss of clamp load in the battery ground joint over time. A loose battery ground joint may cause an intermittent battery ground connection possibly resulting in an intermittent loss of power steering assist with inconsistent driver steering effort and/or a loss of motive power.

An intermittent loss of power steering assist may result in an inconsistent driver steering effort. A loss of motive power could also occur. Either of these conditions may increase the risk of a vehicle crash without warning.

Remedy: Disassemble and inspect the suspect ground surfaces, clean the contact surfaces as needed, and reassemble the ground joint to the specified torque.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Rental

Vehicle was registered by a rental agency.
